

EVERY EVENING, FIVE DIFFERENT BATS TRAVEL TO THEIR FAVORITE FORAGING SITE - 'EL RESTAURANTE DE BICHOS.' NO TWO BATS (EACH OF WHOM TRAVELS FROM A DIFFERENT ROOST SITE) ARRIVE AT THE SAME TIME OR CHOOSE THE SAME DELICIOUS INSECT. FROM THE INFORMATION PROVIDED, CAN YOU DETERMINE THE ORDER (FROM FIRST TO LAST) IN WHICH EACH BAT ARRIVES, THE ROOSTING LOCATION FROM WHICH THEY TRAVEL, AND EACH BAT'S FAVORITE INSECT?

1. STELLA (WHO ARRIVED IMMEDIATELY BEFORE THE BAT WHOSE FAVORITE INSECT IS CADDISFLIES) IS NEITHER THE BAT WHO ENJOYS CRANEFLIES NOR THE BAT WHO ENJOYS TERMITES.
2. BIGGIE (WHO ISN'T FROM SHOOFLY LODGE) ARRIVED IMMEDIATELY BEFORE THE BAT FROM MOONLIGHT STABLES.
3. NO BAT'S INITIAL IS THE SAME AS THE INITIAL OF HIS OR HER ROOST SITE.
4. THE BAT WHO PREFERS CRANEFLIES IS NEITHER THE BAT FROM WILSON SCHOOLHOUSE NOR THE ONE FROM SHOOFLY LODGE.
5. THE BAT FROM PINYON ACRES (WHO PREFERS NEITHER THE CADDISFLIES NOR CRANEFLIES) ARRIVED AT SOME POINT LATER THAN STELLA, WHO ARRIVED AT SOME POINT LATER THAN THE BAT WHO ENJOYS JUNE BUGS.
6. THE BAT WHO LOVES TERMITES ARRIVED AT SOME POINT EARLIER THAN MORI.

		ORDER OF ARRIVAL					ROOST SITE					FAVORITE INSECT				
		FIRST	SECOND	THIRD	FOURTH	FIFTH	MOONLIGHT STABLES	SHOOFLY LODGE	PINYON ACRES	WILSON SCHOOLHOUSE	BOX CANYON	CADDISFLIES	JUNE BUGS	CRANEFLIES	HAWKMOTHS	TERMITES
